## What makes the Anton sofa stand out?

The sinuous springs make the seat more flexible and provide a perfect base for high-elastic foam.

You have the opportunity to choose a fabric from dedicated collections, including fabrics that are easy to clean.

The furniture is fully upholstered, so you can put it in the middle of the living room.

The collection offers several colours of legs. You decide what colour you want. Do you like them and want to buy them for your dresser, for example? Of course you can.

The perfect fit between the seat and backrest to the anatomical shape of the human body provides exceptional comfort and ergonomics of the body.

The highly elastic foam used increases the strength and elasticity of the seat preventing deformation.
