## Bellissa

Bellissa is the undisputed queen of the interior, perfect for those who are not afraid of bold design and distinctive details. Does that match you? Look at these characteristic creases - they give a glamorous look in combination with velour material and decorated, high legs. Soft, spacious seat cushions filled with a special silicone compound and loose back cushions are a promise of rest and relaxation. This sofa consists of two separate modules, which make it very easy to transport, and with a little creativity, this may come in handy in your interior design. It is, in a word, so unique that cannot be left unnoticed. Going to take it home?

## What makes the Bellisse sofa stand out?

---

The sinuous springs make the seat more flexible and provide a perfect base for high-elastic foam.

You have the opportunity to choose a fabric from dedicated collections, including fabrics that are easy to clean.

The furniture is fully upholstered, so you can put it in the middle of the living room.

The collection offers several colours of legs. You decide what colour you want. Do you like them and want to buy them for your dresser, for example? Of course you can.

The perfect fit between the seat and backrest to the anatomical shape of the human body provides exceptional comfort and ergonomics of the body.

The highly elastic foam used increases the strength and elasticity of the seat preventing deformation.
